

Cyber Privacy Protection

By **Red River Mutual**

**Identity and Privacy Breach
Defence Services**

As one of the leading insurance providers on the prairies, it's our business to protect our policyholders from accidents, disasters and the unknown.

Today, that means more than protecting physical assets and business continuity. It means providing coverage that responds to two of the fastest growing threats – customer identity fraud and commercial privacy breaches.

Key Benefits of Cyber Privacy Protection Coverage

**90-Day
Retroactive

Privacy Breach
Experts**

How Red River Mutual is Protecting You

Data breaches occur with alarming frequency, and no business is immune to the effects that gaps in data security can have on the bottom line. Commercial policies issued by Red River Mutual will now include a base package of Cyber Privacy Protection. Our upgraded coverage will help protect you against even greater risk in the event of a privacy breach.

This optional upgrade is available for Commercial policyholders who want to increase their First Party limits and add Third Party Cyber Event Liability coverage.

WHY UPGRADE YOUR COVERAGE?

- Further protect your income with Business Interruption coverage
- Help cover your business against Data Ransom, Extortion and Blackmail
- Added coverage against Regulatory Fines and Penalties

**Privacy breaches can occur anywhere.
Is your business prepared?**

Talk to your insurance broker to learn more about the benefits of Cyber Privacy Protection coverage.
